Wines and liquors are a tra-
ditional part of every

HOLIDAY FEAST

They add an extra glow of
cheer to the grand occasion!
Fine wines and liquors say
more than words in an expres-
sion of warm hospitality.

It's traditional too, to buy
quality merchandise at MID-
TOWN. Conveniently located
where there is plenty of park-
ing space at 7144 Mission
Street.

MIDTOWN LIQUOR STORE

WHEN SHOULD BROILED MEATS BE SEASONED?

Each side should
be seasoned after
it is browned —
when the chops or
steaks are turned
and when they are
done.

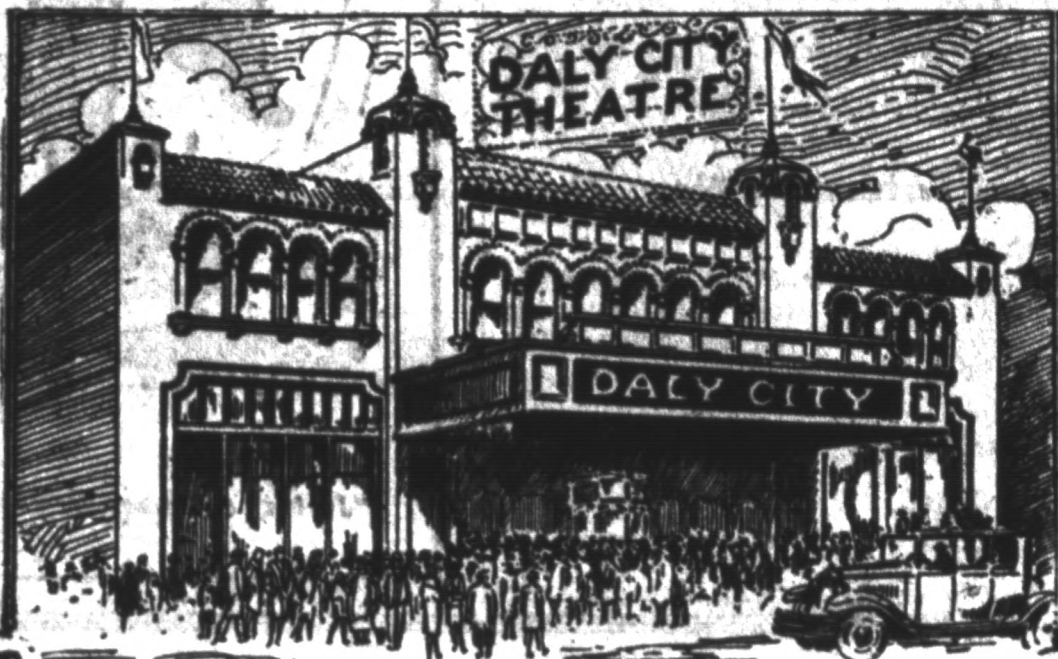

SHOULD VEAL CHOPS BE BROILED?

No, Veal chops
should be braised.
Veal is from a
young animal and
is not fat enough
to be broiled.

SHOULD BACON BE COOKED RAPIDLY?

No, bacon
should be start-
ed in a cold fry-
ing pan, cooked
slowly, turned
frequently, and
the drippings
poured off from time to time.

WAAC'S Issue Appeal For Women Mechanics

Attention women radio operators and mechanics!

The WAAC's (Women's Army Auxiliary Corps) have issued an urgent call for recruits who have had experience as radio operators, radio mechanics, teletypists and PBX operators. Qualified amateur operators and technicians are also acceptable.

This is a splendid opportunity to join the WAAC's and at the same time to be in the nation's war effort. Only qualifications are that the applicant be from 21 to 44 inclusive, in good health, and an American citizen.

Don't delay... this quota must be filled at once. Visit or write the WAAC Recruiting headquarters, 444 Market street in San Francisco.

Our Job Is to Save Dollars Buy War Bonds Every Pay Day

How to Carve The Turkey

and keep your disposition

Insert fork astride breast bone. Separate thigh... sever joint with tip of the knife.

Cut around wing close to fowl and remove... same as the thigh and the drumstick.

Then... cut thin slices of white meat from breast, cutting downward toward front.

Separate drumstick and thigh at joint. Slice dark meat lengthwise from bone.

CUT OUT AND PRESENT TO THE MAN OF THE HOUSE HE'LL LOVE YOU FOR IT!

Part For Victory?

When, Join The SALVAGE FOR VICTORY Drive In Earnest

★ SAVE TIN CANS

Not just when you "happen" to remember but faithfully, every day, every can. Prepare cans properly and see that they get into the hands of one of the collectors in your neighborhood. Pupils of the district grammar schools are acting as collectors in this drive.

★ SAVE FATS AND GREASES

These are needed to aid in the manufacture of munitions. Take them to your butcher for sale when you have accumulated a pound or more.

★ ROUND UP ALL SCRAP METAL

Daly City will be having more scrap metal drives. Plan now to give as much scrap as you can find after carefully combing your house, basement and attic. The secret of increased production of war materials is a continuous flow of scrap.

THE UNEXPLODED BOMB

EDITOR'S NOTE: Did it ever occur to you that in the event of an air raid your home may suffer the raid with no damage whatever, and that a day or two after the enemy bombers have departed, it may be blown to bits? That may happen. When it does, the answer will be the unexploded bomb, the UXB. In last week's issue we told you about the UXB and why it is the most dangerous and devastating of modern war's weapons. In this article, of a series authorized by the U. S. Office of Civilian Defense, the Ninth Civilian Defense Region, we will tell you about the situation working to render unexploded bombs which have exploded down out of the sky during an air raid are not lying on the surface of the ground. Instead they will come crashing through the roofs of homes, factories, or buildings, tear through limbs of trees and bury themselves from 15 to 60 feet deep in ground. Most always they leave indications of their passage. It is these indications, which if promptly read, begin a series of coordinated and planned operations in defense. When your Air Raid Den has reason to believe that a UXB has fallen in his area, he has been instructed to immediately call the control center of your local defense council. The Center will dispatch a Bomb Reconnaissance Agent to make a thorough investigation of the area and decide whether the hole is in the roof, the living room

floor, basement or pavement was caused by the passage of a bomb, or whether it was caused by a chunk of concrete blown from an actual nearby explosion. Bomb Reconnaissance Agents have been carefully chosen by your Civilian Defense council and given a special course of training by the U. S. Army to prepare them for their duties. If the Bomb Reconnaissance Agent decides that a UXB does exist, he will instruct the Air Raid Wardens to remove the residents from the area where the UXB has planted itself. Thus you will be told that you must grab a suitcase of clothes and move out of your home, along with your family and your neighbors for a considerable area around the unexploded bomb. You will have to find residence somewhere else in the city. Maybe you won't enjoy doubling up with Aunt Minnie's family for a week or ten days, but it will be a lot better than sitting on the proverbial "keg of dynamite," that may go off at any moment and blow up you, your family and the whole neighborhood. If you have no place to go, your Civilian Defense Council will assist you in finding quarters. Auxiliary police will be sent to the scene to rope off the area; direct traffic from the evacuated territory and to police the neighborhood so that your home possessions will be protected while you are away. The control center of your Civilian Defense Council will also notify the U. S. Office of Civilian Defense headquarters nearest your city, which in turn will call for the expert assistance of the Bomb Disposal Unit of the

Western Defense Command and Fourth Army. At this point the U. S. Army will take over and it will be the Army's job to take such measures as may be necessary to remove the planted bomb. In case a number of UXBs have fallen, it may be a week or more before the Army can take care of the one which has disrupted your life. But you must stay away from your home until you are notified by the authorities that it is safe for you to return. Every citizen has a responsibility to perform in connection not only with the UXB but with all other instruments of war which may fall during an air raid. This responsibility will be outlined in next week's article. If you fall in your responsibility, in performing the simple part you have to play, the rest of the protective force set up to save you, your family and neighbors, probably won't have a chance to function and you all may be killed. It is your responsibility to know what to do and to do it when the moment for action arrives.

Wage Earners May Obtain S. S. Statement

Wage earners whose jobs are covered by the social security act were reminded today that a statement of wages credited to their accounts may be obtained from the social security board and that any errors in the account for employment in 1938 must be corrected before the end of this year. Edward J. Foley, manager of the board's San Mateo office, explained that the law limits the time within which errors or omissions in a worker's account can be corrected to four years after the year in which the wages were received. The San Mateo office of the social security board, located at 308 Baldwin avenue, will furnish on request a postcard form on which the worker may apply for a statement of his account.

A Man's Dessert

By Frances Lee Barton

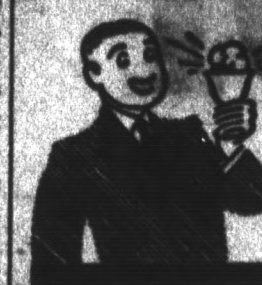

WHILE Concord grapes are on the market, and early frost is brewing, men's appetites begin to shout, "We're hungry girls, what's stewing?" Get out your taploca box. Get grapes. Cook, strain and squeeze 'em.

Oh! Here's the recipe complete. A man's dessert! 'Twill please 'em.

Concord Grape Taploca

4 cups prepared Concord grapes; 1/2 cup water; 4 tablespoons quick-cooking taploca; 1/2 cup sugar; 1/2 teaspoon salt; 1 teaspoon lemon juice; 1/2 teaspoon grated lemon rind.

Wash and stem grapes. Add water, cover, and cook about 5 minutes. Strain; add water to juice to make 1/2 cup. Combine taploca, sugar, salt, and grape juice and water in saucepan and mix well. Bring mixture quickly to a full boil over direct heat, stirring constantly. Remove from fire. (Mixture will be thin. Do not overcook.) Add lemon juice and rind. Cool, stirring occasionally—mixture thickens as it cools. Chill. Serve in sherbet glasses with plain or whipped cream. Serves 4.

Winterland Now Open For Skaters

Transported from the frozen rivers and lakes of the snowy East, the joys and sport of winter in snow country are being mixed with native California climate by San Franciscans, since the reopening of Winterland, Post and Steiner streets, for public skating.

Again featuring "Marvel-Smooth Ice," the rink has undergone extensive remodeling since the close of the scintillating "Ice Follies."

Gay throngs of enthusiastic ice skaters are returning in full force to enjoy the thrills of skating on the world's smoothest skating surface.

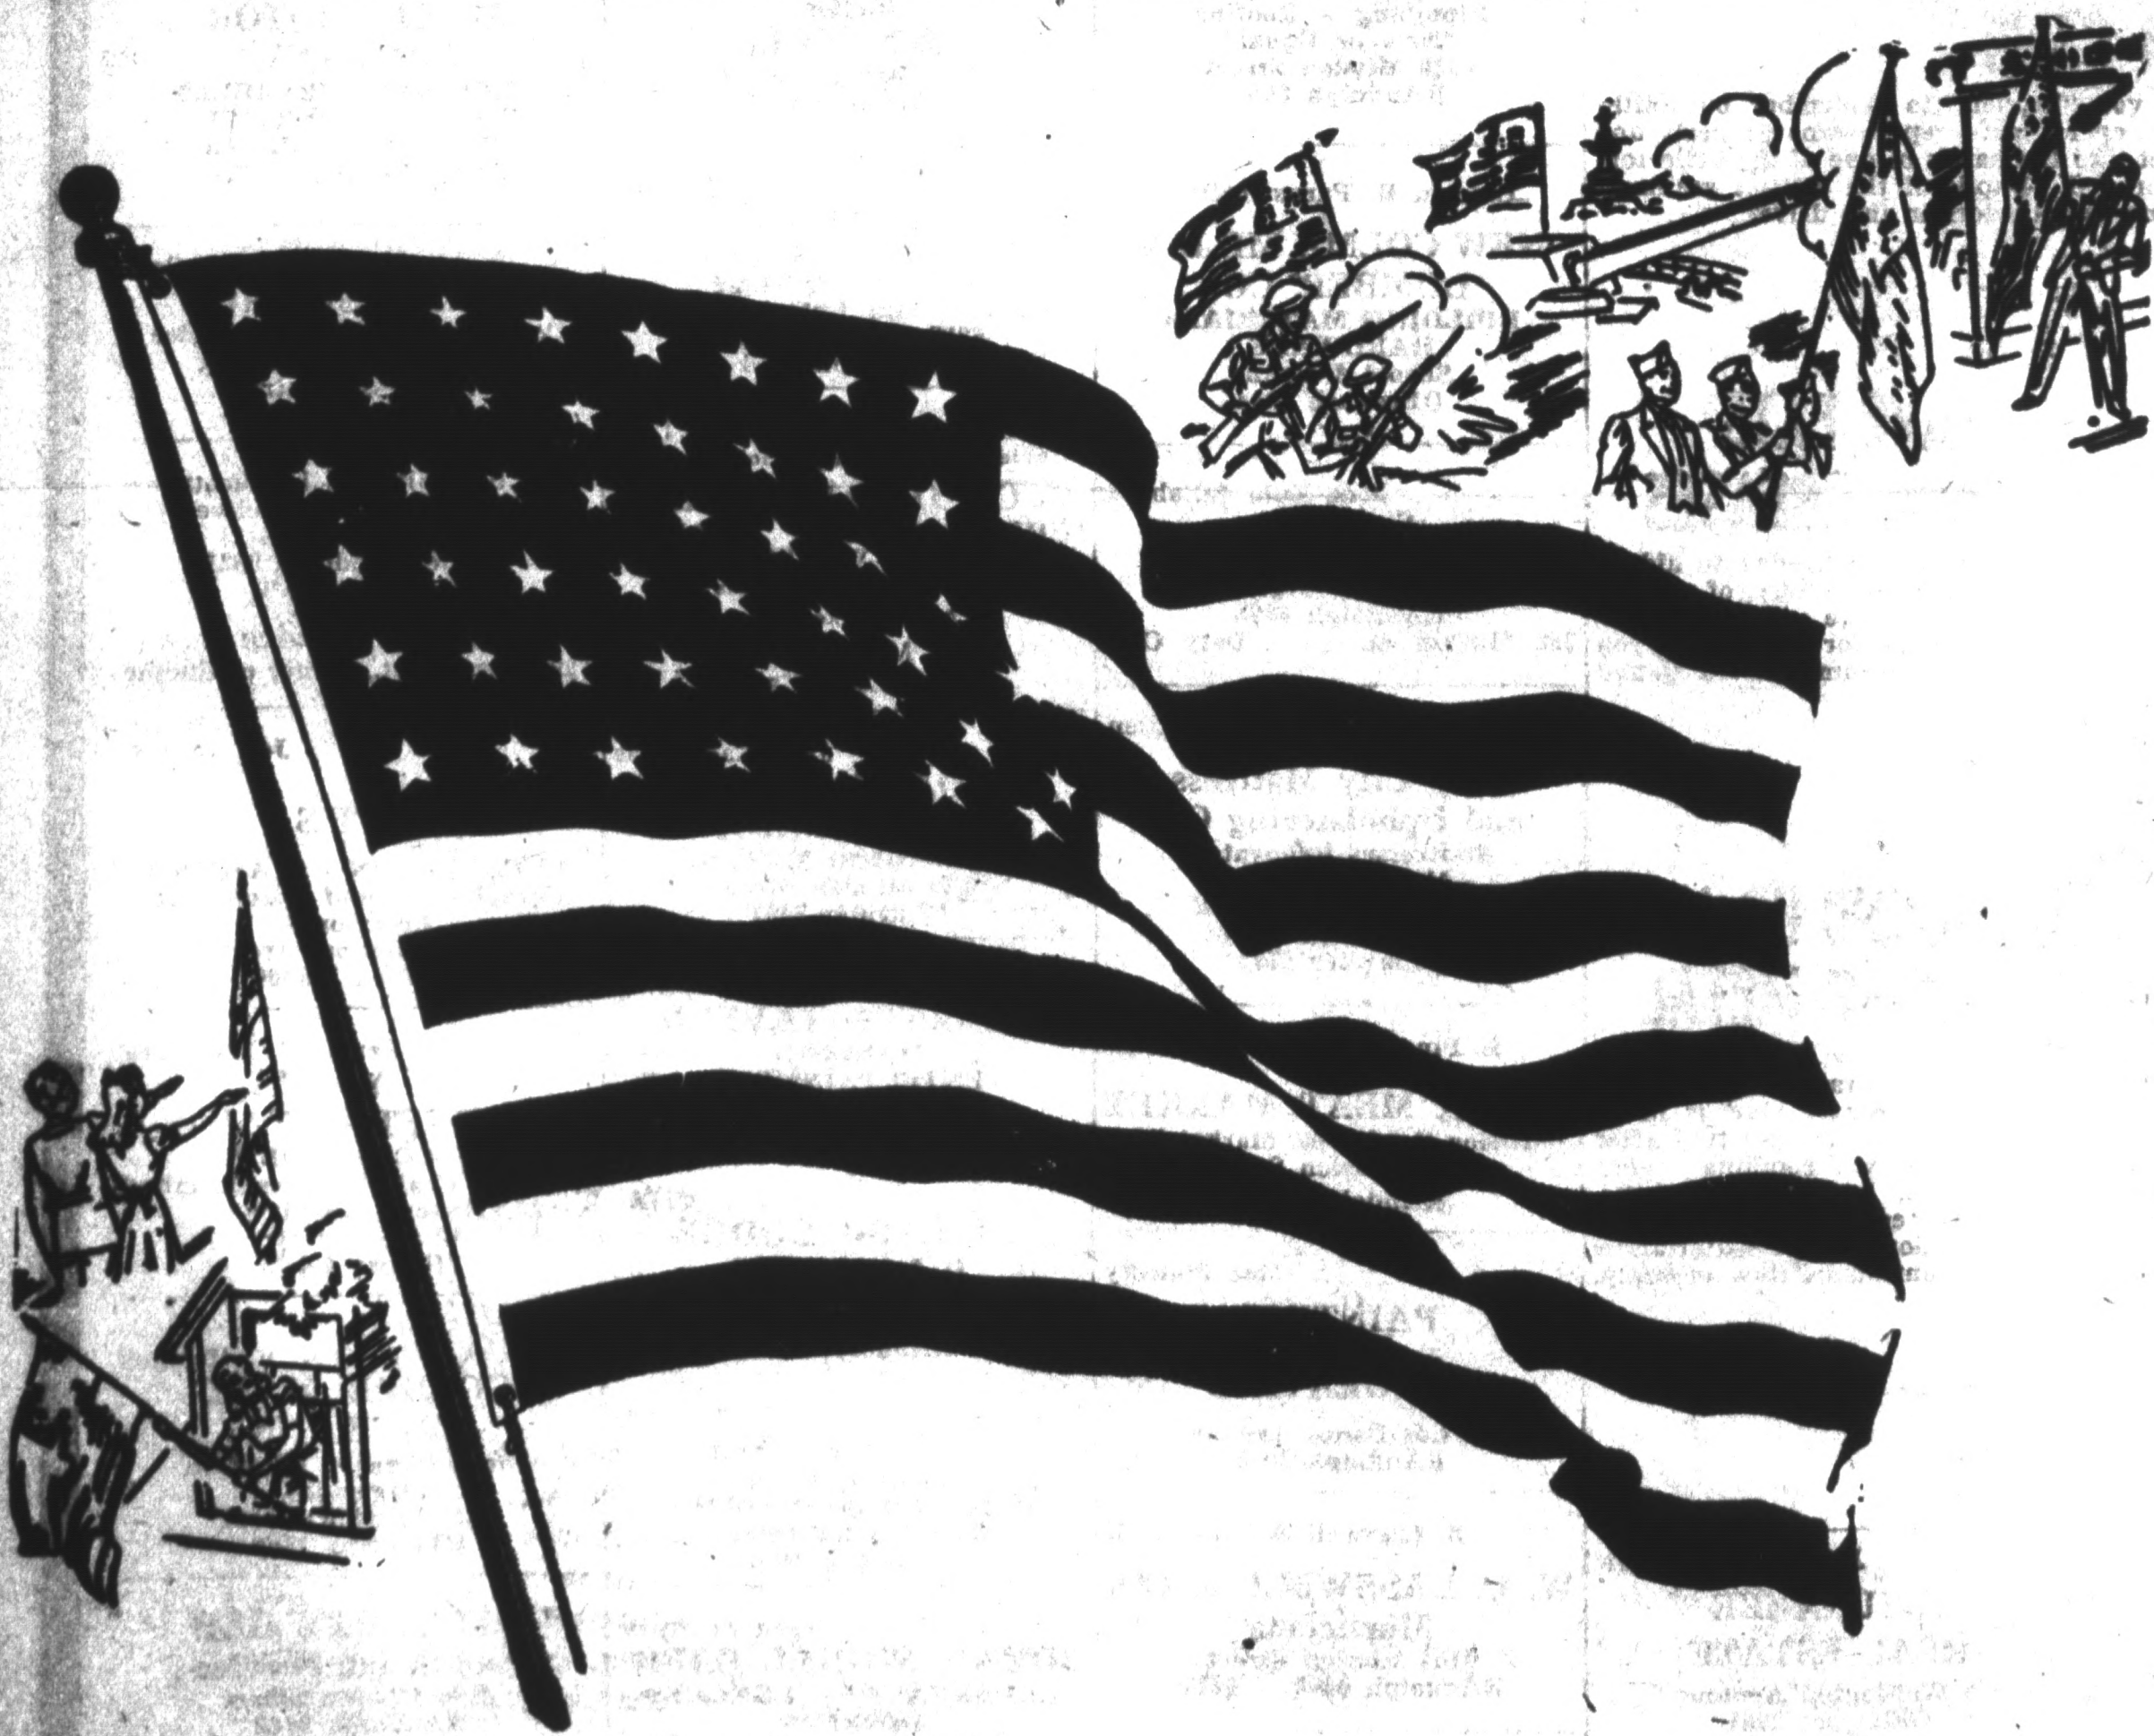

During the alterations, the ice area has been doubled in size. The entire lobby of the building has been transformed to provide the greatest comfort and convenience for skaters.

Among the activities now offered at Winterland are included group sessions of local skating clubs and courses of instruction under the direction of the best known skating instructors of the country. Skates are available at the rink.
